Work Area Recovery Suite (WARS) Services

An alternate worksite solution that keeps your business going even when your primary worksite is unavailable due to any form of disruptions.
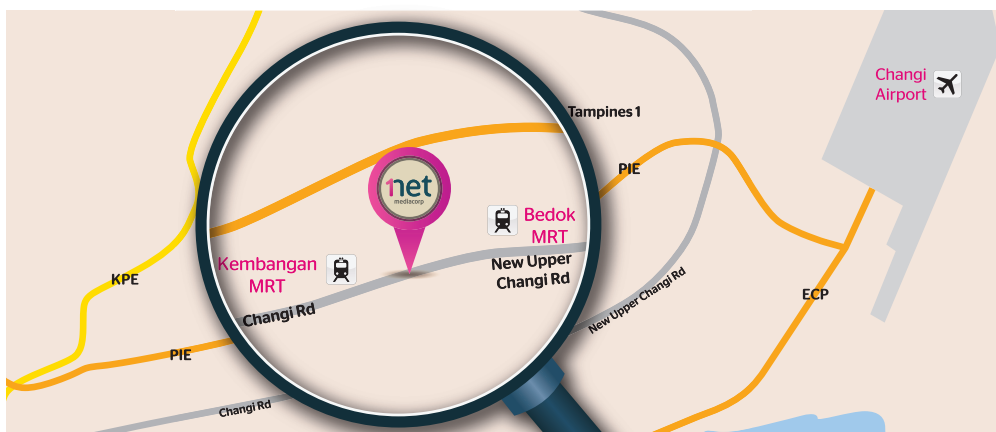

A Worksite Contingency Plan

Most corporate disaster recovery plans focus on the IT infrastructure to keep the systems running and recover their data. However, most companies overlooked the importance of a critical an important component of Business Continuity Plan (BCP) - a reliable and secured alternate worksite. In the event of a disaster e.g. fire outbreak, the primary worksite may become unavailable, thus relocating people and operations is crucial to getting your business back up and running as soon as possible.

In addition to our dedicated Data Centers and Managed Services, 1-Net Work Area Recovery Suite (WARS) offers alternate worksite, fully equipped with essential facilities to address your emergency needs during a disaster or other business disruptions.

Facility Highlights

Our facility is conveniently located at Viva Business Park in Singapore with close proximity to MRT stations, expressways and bus stops.

15 mins drive from Singapore Changi Airport

2 MRT stations located approx 1.5km away

5 mins walk from 1-Net's Headquarter

Surrounded by 24hr amenities such as eateries, hypermarkets

Police Center within 5 mins drive

Location of 1-Net

Direct Connection to Your Infrastructure

1-Net Work Area Recovery Suite is not just an office space. Our recovery suite is located in the same building just below our data center facility at the eastern part of Singapore in Viva Business Park, which features a resilient infrastructure, network connectivity and data center access which allows you to directly connect to your co-location.

At 1-Net, we are also interconnected to other key major data centers in Asia through our Data Center Corridor. The data center corridor is a low cost connectivity and latency network which allows our users to connect to other data centers.
